37/500

Fortune companies have Headquarters in GERMANY

Comparing Unemployment & Average Tuition Fees

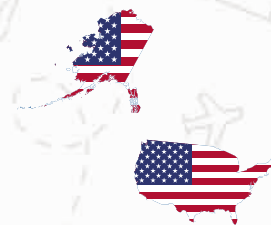

Average Tuition Fees

INDIA ₹ | 10000

GERMANY € | 650

USA \$ | 40000

CANADA \$ | 25000

UK £ | 35000

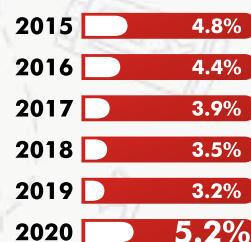

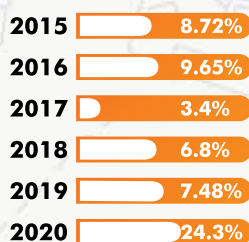

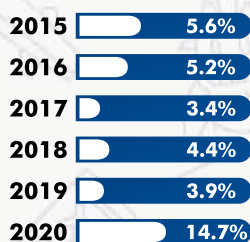

AUSTRALIA \$ | 40000

* Average for one academic year for International Students

What about the Job Market??

Germany is the ideal destination for professional because of staggering low rate of unemployment. German cities boast a large number of innovative high tech companies and its fast-growing industrialization is causing an outburst in the number of available jobs. The relatively low unemployment rate in Germany even in pandemic is an expression of the country's sound economic situation.

At **GERMANYWALE,**

It is all about Making your dream come true.

The current industry is in the midst of a huge technological disruption, and today a need for higher education has become inevitable for one to be part of this league. But this journey hasn't been easy for students with limited resources and guidance. Being part of a typical working class society ourselves, this journey turned to be a nightmare. Huge loans for tuition fees and strict regulations for international students made us realize to switch options from Western Education and look for better options.

We seek to break the conventional trend for one to pursue education at the cost of huge monetary burden and open new doors for quality education. Now with more than 10 years of guiding students to Germany and experiencing its culture, education and diversity, we realized this as the ideal place for students and professionals

With this we have envisioned to come up with Germanywale, a team of experts who believe in fostering students towards their goal of higher education in a foreign land and be the reason for one's professional & personal growth.
